

## COMPTEC CONFLICT MINERALS POLICY

It is the policy of Comptec, Inc. to only use suppliers who conform with the Dodd-Frank Act of 2010 concerning the use of “conflict minerals” originating from the Democratic Republic of the Congo (DRC) or adjoining countries. It is the wish of Comptec, Inc. to have a supply chain free of raw materials obtained through these channels. Each of our prospective suppliers of raw materials is required to fill out our “Conflict Minerals Reporting Template” before becoming approved. It is our hope that through this and our due diligence concerning this matter, that our customers can be confident that products they receive from us are produced without the use of materials obtained from the aforementioned areas.
